

# Krejci Dump Site Location Map

# Site Operations

Operated by the Krejci Family  
– 1950-1980

Liquid and Solid Wastes

Sorted, Salvaged Stored, Disposed and/or  
Burned

# Removal Actions

- NPS Takes Control of Site – Late 1985
- Determined to be Threat to Human Health and the Environment – 1986-1987
- Phased Removal Action – 1987-1995
- Stabilized the Site
- Removed Bulk Wastes and Unconsolidated Wastes

# Remedial Investigation/Feasibility Study (RI/FS)

## **Remedial Investigation** – Completed June 2000

- Determined the Nature and Extent of Contamination
- PCBs, Dioxin/Furan, Polyaromatic Hydrocarbons, Pesticides, Metals, Benzene
- Risk to Human Health and the Environment

## **Feasibility Study** - Completed September 2001

- Identified Options to Clean-Up the Site
- Evaluated the Options

# Proposed Plan and Record of Decision (ROD)

## **Proposed Plan** – Issued November 2001

- Based on the Findings of the FS
- Identified a Preferred Alternative
- Presented at December 2001 Public Meeting
- Requested Comment from Public

## **Record of Decision** – Issued September 2002

- After Consideration of Public Comment
- Preferred Plan Identified as the Selected Remedy

# The Selected Plan

- Excavation of All Debris and Soils Containing Contaminants Exceeding Remediation Goals
- Off-Site Disposal of All Wastes
- Regrading of the Site
- Revegetation of the Site
- Restoration of Small Wetlands

# Remedial Design (RD)

- Cost Recovery Litigation Pursuant to CERCLA
- Company Agrees to Perform Site Clean-Up Under Terms of Consent Decree
- Company Contracted With EQ Industrial Services (EQIS)
- EQIS Prepared Remedial Design Documents
  - Remedial Design Work Plan
  - Intermediate Remedial Design
  - Pre-Final Design
  - Final Design – Approved by DOI June 29, 2005

# The Remedial Action

- To Begin Later This Summer
- Under the Oversight of NPS/Bureau of Reclamation (BOR)
- Key Staff for DOI
  - For Cuyahoga Valley National Park:  
Kevin Skerl - (330) 650-5071
  - For BOR:  
On-Site Project Coordinator – yet to be named
- Key Staff for EQIS
  - Ted Budzynski
